

## Catering Testimonial For Graduation

There is nothing better than having an amazing party planner and chef at your most significant emotional event! My son graduated from college and Daryl made this event memorable! He served 70 guests. He was a great host chatting with people as he prepared his food. The people moved around him sampling food as he explained his food items. The fries (Poutine) with his secret sauce was a hit... people are still talking about it and his sausage dogs and jumbo Mozzarella on a stick!! I will definitely hire him again.
